

## IN THE SPECIFICATION:

Please replace the numbered paragraph [0022], as follows:

Computing device 100 can also contain storage media devices 108 and 110 that may have additional features and functionality. For example, they may include additional storage (removable and non-removable) including, but not limited to, PCMCIA cards, magnetic and optical disks, and magnetic tape. Such additional storage is illustrated in FIG. 1 by removable storage 108 and non-removable storage 110. Computer-readable storage media include volatile and non-volatile, removable and non-removable physical media implemented in any method or technology for storage of information such as computer-readable instructions, data structures, program modules, or other data. Memory 104, removable storage 108, and non-removable storage 110 are all examples of computer-storage media. ~~Computer~~ For example, computer-readable storage media ~~include, but is not limited to,~~ can be RAM, ROM, EEPROM, flash memory or ~~other memory technology,~~ CD-ROM, digital versatile disks or other optical disk storage, magnetic cassettes, magnetic tape, magnetic disk storage or other magnetic storage devices, ~~and any other medium that can be used to store the desired information and that can be accessed by the computing device.~~
